NEEDLEBED WASHING MACHINES

AGILE

Designed to work in little room, it allows the movimentation of the most impervious needlebeds. H2G **Robot** differs from other lifters for its unique feature of rotating your needlebed up to 360°.

STRONG

Thanks to H2G **Robot**, mounting and demounting needlebeds of your knitting machines is no longer a weight. It will be lifting and rotating all kind of needlebeds in your place.

SAFE

H2G **Robot** is for everyone: all machanical parts are protected, wheels are equipped with a safety device. Stability is guaranteed. Certified **CE** EN ISO 12100.
